Ministry wants suggestions on changes  
in CBSE syllabus

EXPRESS NEWS SERVICE  
@ New Delhi

THE Ministry of Human Resources Development will seek suggestions from teachers, education experts, parents and students on what should be retained in the NCERT syllabus followed in Central Board of Secondary Education (CBSE) schools across India and what should be done away with.

The decision comes after an announcement by HRD Minister Prakash Javadekar that the NCERT syllabus will be reduced by about half in coming

sessions.

Javadekar told reporters on Monday that the idea of having quality education across the country emerged predominantly from the six workshops held by the ministry as well as high-level meetings with state education officials on how to improve the quality of school education.

"More than 200 NGOs, education experts, state government officers, headmasters and many teachers took part in these meetings," he said.

He added that it is increasingly being felt that "plenty of information is not education and stu-

dents are not just a data bank".

"The main aim of education is to bring out a good human being. It is the need of the hour to inculcate value education, life skills, experiential learning and physical fitness in our daily life. But the syllabus today is so grand that students don't have time for anything else," the minister said.

He added that the point of reducing the burden was to make students learn the basic principles of subjects and teach them how to interpret and analyse for overall personality development.

To achieve this, the ministry

has asked the NCERT to evaluate the present curriculum and decide what changes could be made.

"This week, we will put on our website a request for suggestions from teachers, parents, educational experts, students and all concerned stakeholders in the field of education on reducing the syllabus of NCERT," Javadekar said.

After two months, he will review the suggestions and take measures to reduce the syllabus.

Ministry sources said the changed syllabus could be implemented in the next two-three years.

We will put on our website a request for suggestions from teachers, parents, educational experts, students and all concerned stakeholders in the field of education on reducing the syllabus of NCERT

## एपीआई खत्म कॉलेजों में अब होंगे प्रोफेसर: जावड़ेकर

नए शिक्षकों को नियुक्ति के बाद करना होगा एक महीने का अध्यापन कोर्स

■ एजेंसी। नई दिल्ली.

देश में उच्च शिक्षा की गुणवत्ता को बढ़ाने के लिए शिक्षकों की नियुक्ति के नियमों में परिवर्तन करते हुए सरकार ने बुधवार को एक बड़ा फैसला किया जिसके तहत अब कॉलेजों में भी प्रोफेसर होंगे और एपीआई (एसेसमेंट परफॉर्मेट इंडेक्स) प्रणाली को खत्म कर दिया गया है एवं नये शिक्षकों की नियुक्ति के बाद उन्हें अध्यापन के लिए एक महीने का कोर्स करना पड़ेगा. मानव संसाधन विकास मंत्री प्रकाश जावड़ेकर ने आज यहां देश के विश्वविद्यालयों और कॉलेजों में शिक्षकों की नियुक्ति के लिए न्यूनतम योग्यता को निर्धारित करने की नई नियमावली की घोषणा करते हुए यह जानकारी पत्रकारों को दी. श्री जावड़ेकर ने बताया कि 2021 के बाद विश्वविद्यालयों में शिक्षकों की

### शोध से जरूरी छात्रों को पढ़ाना

श्री जावड़ेकर ने बताया कि कॉलेजों में शिक्षकों को शोध करने की जरूरत नहीं है बल्कि उन्हें छात्रों को बेहतर ढंग से पढ़ाने की आवश्यकता है इसलिए एपीआई प्रणाली को खत्म कर दिया गया है लेकिन यह एपीआई प्रणाली

विश्वविद्यालय स्तर पर जारी रहेगी और विश्वविद्यालय के शिक्षकों को शोध कार्य पर अपना ध्यान केंद्रित करना होगा. उन्होंने कहा कि कॉलेजों में शिक्षकों के अध्यापन कार्य के मूल्यांकन के लिए एक नई आकलन प्रणाली विकसित की जाएगी.

### पीएचडी है तो नेट अनिवार्य नहीं

उन्होंने बताया कि कॉलेजों में शिक्षकों की नियुक्ति के लिए नेट अनिवार्य रहेगा लेकिन अगर कोई उम्मीदवार पीएचडी डिग्री धारक है तो उसके लिए नेट अनिवार्य नहीं होगा पर विश्वविद्यालयों में तीन साल के बाद नियुक्ति के लिए पीएचडी अनिवार्य होगी. कॉलेजों में तीन साल बाद सहायक प्रोफेसर (सेलेक्शन ग्रेड) और प्रोफेसर बनने के लिए पीएचडी अनिवार्य होगा. उन्होंने बताया कि 2010 के नियमों के अनुसार एमफिल और पीएचडी धारक शिक्षकों को इंसेटिव जारी रहेगी.

### कुल प्रोफेसरो के दस फीसदी होंगे वरिष्ठ प्रोफेसर

मानव संसाधन विकास मंत्री ने यह भी कहा कि जिन शिक्षकों के लेक्चरर मुक्स में होंगे उन्हें पदोन्नति में महत्व दिया जाएगा. उन्होंने बताया कि विश्वविद्यालयों में प्रोफेसर के जितने पद होंगे उनका दसवां हिस्सा वरिष्ठ प्रोफेसर के रूप में नियुक्त किया जाएगा. इसके अलावा विश्वविद्यालयों और कॉलेजों में ओलंपिक एशियाड और राष्ट्रकुल खेल के पदक विजेताओं को सहायक निदेशक कॉलेज निदेशक या कॉलेज निदेशक और उपनिदेशक तथा खेल निदेशक एवं शारीरिक शिक्षा निदेशक जैसे पदों पर नियुक्त किये जाएंगे.

नियुक्ति के लिए पीएचडी को अनिवार्य कर दिया गया है और कॉलेजों में भी सहायक प्रोफेसर (सेलेक्शन ग्रेड) की पदोन्नति के लिए भी पीएचडी को अनिवार्य किया गया है.

RESEARCH NOT MANDATORY

# PhD must for college teachers' promotion

OUR SPECIAL  
CORRESPONDENT

New Delhi: College teachers will no longer be bound to pursue research but must have a doctorate for promotion to the next grade within the rank of assistant professor, the government announced on Wednesday ahead of planned changes to rules.

It means that while research becomes optional for college teachers, a PhD is a must for career advancement. Till now, college teachers who didn't have doctorate degrees could be promoted to associate professor based on their academic and research performance and interviews.

Human resource development minister Prakash Javadekar said he had approved the proposed regulations on minimum qualifications for appointment of teachers in universities and colleges and measures for maintenance of standards in higher education.

"Making research mandatory was a point of irritation... everybody cannot be a researcher," Javadekar told a media conference.

Javadekar, however, clar-

Javadekar addresses a news conference in New Delhi on Wednesday. (PTI)

ified that research would continue to be mandatory for those who teach in varsities.

The new regulations, prepared by the University Grants Commission, would supersede the earlier rules that made it mandatory for university and college teachers to pursue research.

Once appointed assistant professors in colleges, candidates will have to have PhD for promotion to next grade within the assistant professor post. The new norms, which may be notified this month, will want the universities to recruit only PhD degree holders as assistant professors from the 2021 session. But colleges will have the liberty to recruit candidates who have either cleared the National Eligibil-

ity Test (NET) or State Level Eligibility Test (SLET) or have PhD degree holders as assistant professor. The mandatory requirement of PhD degree for assistant professor posts in universities will make the NET and SLET irrelevant for universities.

However, the NET and SLET will be required for selection students for fellowship like Junior Research Fellowship.

Once appointed assistant professors in colleges, the candidates will have to have PhD for promotion to next grade within the assistant professor post. Till now, teachers without PhD were able to get promotion to associate professor in colleges based on their academic and research performance and interview.

The new regulation will replace the Academic Performance Indicators for promotion by teacher evaluation grading system. Under this system, teachers will be evaluated on teaching, extension and mentoring activities. Every teacher's performance will be categorized as "satisfactory", "good" and "very good". This will help them in promotion.

# Paper setters to receive training CTET in 20 languages to continue

National Testing Agency will take it up: Javadekar

SPECIAL CORRESPONDENT  
NEW DELHI

The National Testing Agency, which is being set up to relieve the Central Board of Secondary Education (CBSE) of the burden of conducting multiple examinations, will also train paper setters to set better question papers and provide better model answers.

"There is no system for paper-setter training till now. We will introduce it as part of the National Testing Agency's mandate," HRD minister Prakash Javadekar told journalists on Monday, while listing the "achievements" of the Modi government in the field of education.

## NTA to conduct exams

The agency's mandate as envisaged by the Ministry of Human Resource Development is to put in place a robust system for the conduct of examinations.

SPECIAL CORRESPONDENT  
NEW DELHI

Union Minister for Human Resource Development Prakash Javadekar said on Monday that he has directed the Central Board of Secondary Education (CBSE) to hold the Central Teacher Eligibility Examination (CTET) in all 20 languages in which it is now being held.

News reports had said the examination would henceforth be held only in English, Hindi and Sanskrit, and not regional languages, something that was likely to put candidates from Tamil Nadu and many other States in a position of disadvantage.

Agency is expected to conduct some of the examinations that the CBSE has been conducting till now, Mr. Javadekar, who held a review of the proposed body on Sunday, said.

Eventually, the new body

"I have already directed @cbseindia29 to conduct examination in all the 20 languages as was being done earlier," Mr. Javadekar tweeted. "#CTET

examination will be held in English, Hindi, Assamese, Bangla, Garo, Gujarati, Kannada, Khasi, Malayalam, Manipuri, Marathi, Mizo, Nepali, Oriya, Punjabi,

Sanskrit, Tamil, Telugu, Tibetan & Urdu."

Earlier, the Minister was asked about this during a press conference held to highlight "achievements" of the HRD Ministry in the last four years. "It was decided by the CBSE, to follow the court orders to complete the exam in time, that they would reduce some language options," Mr. Javadekar said. "But I have directed them to conduct it in all 20 languages."

The CBSE conducts the CTET as a requirement for appointment of teachers in Kendriya Vidyalayas and also private schools affiliated to the it.

will take over all examinations from the CBSE, except the 10th and 12th board examinations.

Among the examinations that will be transferred to the NTA are the prestigious Joint Entrance Examination (JEE)

for admission to engineering colleges like the IITs and NITs and the National Eligibility Cum Entrance Test (NEET) for admission to all medical colleges in the country, except AIIMS and JIPMER, Puducherry.

The creation of NTA was approved by the Union Cabinet chaired by the Prime Minister in November 2017. After a one-time grant of ₹25 crore to the NTA, it is supposed to become financially self-sustainable.

**TEACHERS' TEST**

**Govt U-turn  
lets candidates  
write CTET in  
20 languages**

**EXPRESS NEWS SERVICE**  
@ New Delhi

DAYS after the CBSE sparked an outrage by choosing not to conduct the Central Teachers' Eligibility Test (CTET) in 17 regional languages, Union Human Resource Development minister Prakash Javadekar on Monday directed the board to reverse its decision. The exam will now be conducted in 20 languages, including Tamil.

"The CBSE had decided to hold the exam in only three languages (Hindi, English and Sanskrit) as there was a direction from the court that the test must be carried out quickly. However, I asked it to go ahead with all languages in which the exam was taken last year," Javadekar said.

Besides English, Hindi, and Sanskrit, the test may be taken in Tamil, Assamese, Bangla, Garo, Gujarati, Kanada, Khasi, Malyalam, Manipuri, Marathi, Mizo, Nepali, Oriya, Punjabi, Telugu, Tibetan and Urdu.

The CBSE's decision had led to angry reactions. "Students are forced to study Hindi and Sanskrit instead of their mother tongue... This is another of BJP's efforts to make a Hindi-Hindu Hindustan," said DMK leader Kanimozhi.

## No textbooks in stores, CBSE students take online route

**Minati.Singha**  
@timesgroup.com

**Bhubaneswar:** A crippling shortage of textbooks in the market has resulted in students of various schools affiliated to the Central Board of Secondary Education (CBSE) resorting to studying e-versions of the books on their computers.

Commerce and humanities textbooks for Classes XI and XII are the least available, closely followed by biology and chemistry books of the same classes.

A few students have also tried purchasing the course books from online book-sellers but allege that even with the option availed, the delay in arrival of the books has made life considerably difficult. "It is difficult to follow lessons without textbooks. I have been trying to manage by borrowing from my friends, but this cannot be a long-term arrangement. The books are not available in the markets of Bhubaneswar. We have also tried the markets of Cuttack and Bhubaneswar, but they are unavailable there as well," said Ashutosh Sahu, a Class XI student of a city-based private school.

School authorities said

### SCHOOL BUZZ

they submit the requirements for textbooks to the National Council of Educational Research and Training (NCERT), the organisation that is supposed to provide books based on the number required. However, NCERT books have proven elusive and are never available in adequate numbers, say school officials.

"We have been ordering books from a Delhi-based agent. We place our orders much before time. This is all to beat the crunch in text books. There is severe shortage in the NCERT bookstore as well as with agents," said spokesperson for a city school, requesting anonymity.

"Due to lack of proper storage facilities, we don't bring a lot of books at once as there are chances of them getting dam-

aged. Sometimes, after getting orders from schools, we forward the order to our Kolkata or Delhi office," said R N Tripathy, who is in charge of NCERT's only official sales counter in the city.

"After the Union ministry of human resource development announced that NCERT books will be mandatory for all CBSE-affiliated schools in September 2017, the sales have gone up significantly. But later in December when the order was withdrawn, book sales fell. The counter sells around 8,000 to 10,000 copies of text books in a year," Tripathy added.

Online book stores and various apps have come as a big relief for students. "There are many apps from where one can download e-versions of NCERT books. The prices of the text books also reasonable in e-commerce websites," said Madhavi Rao, a parent of a Class XI student in the city.

However, this is where rural students suffer. Downloading text books is again a problem due to connectivity issues. Many e-commerce websites do not have delivery facilities to places like Baripada, Keonjhar, Bhadrak, Paradip, Kendrapada and several other towns in the state.

## Unique question paper for each JEE, NEET examinee?

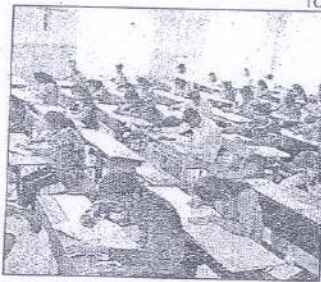

Manash Gohain  
@timesgroup.com

**New Delhi:** Competitive tests such as JEE main, NEET-UG and UGC NET are set for a major overhaul from next year. The changes include having a unique set of questions for each candidate, with a software picking questions at random, and multiple dates for taking an exam.

The overhaul is being driven by the new National Testing Agency (NTA), which will conduct its first exam in December 2018 — the University Grants Commission's National Eligibility Test. The agency will annually test around 1.5 crore candidates.

NTA plans to rely heavily on technological tools like artificial intelligence, psychometric analysis and computer-based adaptive testing — where candidates are taken to the next level of questions once they are through with easier questions — to change the way exams are conducted in India.

"The tests will be 100% safe. The highest level of encryption will be used so that no one can hack into the sys-

FAIR PLAY

tem," said Vineet Joshi, director general of NTA.

NTA officials said the test will be designed in a way that rote learning and intensive coaching are not of much help to candidates unless she is thorough with the syllabus. "There will be distractors (multiple choice questions) designed to fox you. And with millions of questions (items) to be prepared instead of a couple of question papers for a particular test, you will be at the mercy of the software's algorithm which will pick up items at random for your test at a particular date, based on the set difficulty-level," an official said.

Sources said these computer-based tests will have

several advantages. Candidates will be able to revisit questions later or keep some for review once the easier ones are done. In case the exam date doesn't suit a candidate, she will be free to choose another date (from a given set). And, as has been reported, if the candidate is unhappy with her score, she can take the exam again after three months.

"It is going to be completely driven by technology. Artificial intelligence tools will be used to setting the questions and preparing the key for the correct answers. This will increase the capacity of NTA to do the things faster," a human resource development ministry official said.

NTA is currently undertaking psychometric analysis of the previous years' tests. "We are seeing how each question has fared to determine its level of difficulty. Second, we are looking is how the distractors (the multiple choices for a question) have functioned. These distractors should be able to properly distract the person," said a psychometric expert analysing the JEE main data at NTA.

# Sports to be part of CBSE course from next year

by Uttar Pradesh Chief

SWAROOP SWAMINATHAN  
@ New Delhi

FROM the 2019-20 academic year, CBSE students will likely have to contend with a new course: sports. If the word from the sports ministry is anything to go by, it is going to be an essential component of a new subject called 'health, physical education and sports'.

This was confirmed by sports

secretary Rahul Bhatnagar to *TNIE* during a wide-ranging interview on Friday. "The existing subject called 'health and physical education' will be replaced by 'health, physical education and sports' from the next academic year (2019-20). It's something we have actively pursued and recommended (to the CBSE)."

While CBSE is yet to confirm such a move, the sports ministry

has been trying to get sports as a formal part of the curriculum for quite some time. Both Vijay Goel, who was the sports minister before Rajyavardhan Rathore took over in a cabinet reshuffle in September last year, and Injeti Srinivas, Bhatnagar's immediate predecessor, had gone on record to talk about the importance of a sports course at the school level. In fact, Srinivas spoke about how the administra-

### Equal weightage for theory and practicals

Schools may implement the subject as they deem fit, but marks for theory and practicals will be given equal weightage. "It's 30 marks for practicals and 70 for theory. It will be 50 each," said Bhatnagar

tion was trying to get such a course into the system in 2018-19 academic year. "There is a no-detention policy until Class 8, but after that, you will have to pass in sports also," he had said. "We need to work out the details. It can't be made compulsory in Class 12 all of a sudden."

As it stands, 'health and physical education', a qualifying subject, is taught in CBSE schools every day.

## 'Excuse me, I am part of India'

### Express Features

It's been ten years that Elizabeth had shifted from Manipur to Odisha for better career opportunities. She is a professor at Regional Institute of Education in Bhubaneswar. On the campus, she is popular as madam Elizabeth. But every time she steps out of the campus, her identity is at stake. Sometimes, she is referred to as the Chinese doll; the Korean lady; the Japanese woman or simply a foreigner. All her important documents claim she is an Indian citizen. That's not enough for the people in the streets. For them, it's her colour and facial features which determine her identity.

"Once, a lady came rushing to me as she spotted me in the crowd at a market place. She started speaking in Korean language. I couldn't understand a word of it. I had to interrupt her and tell: I am a part of India, I am not a foreigner. On some other day, her husband had to explain a street-side vendor about his nationality by pointing out the North Eastern States on an Indian map," she recollected.

She is not the only one from North East who deal with unpleasant stares on the roads. Students coming from the Seven Sister states face similar situations, very often. In a bid to bridge the gap between the North East and the rest of India, a cultural exchange programme was held at the auditorium of The Regional Institute of Education (RIE) on Tuesday. The event was a combined initiative of the North East Study Centre at Utkal University and RIE.

"We have at least 100 students from North East, which is about 10 per cent of the total strength. We, therefore, conduct this pro-

gramme annually to facilitate cultural exchange between the students from Odisha and North East," said P C Agarwal, Principal of RIE.

"The significant issues of the region that calls for concerted attention are conflict and livelihood and ethnicity and identity. We are trying to make Bhubane-

swar a cosmopolitan hub for national and international students," opined VC of Utkal University, S Patnaik.

According to the faculty members of RIE, this year there has been an increase in the number of students coming to pursue higher studies in Bhubaneswar. "They states have huge potential. But, they lack the resources. So, the students are now moving out of the State only to return back to their native land and end the crisis of skilled labour and resources there," said Prof Gowramma of RIE.

The students of RIE presented a cultural programme, showcasing various dance forms and culture of the North Eastern states. They performed traditional dances like Jagoi, Bihu, Bamboo dance and Maruna. The North East students also sashayed down the ramp donning their traditional attires.
